CHIEF SECRETARY
16 SEP. 1942
GOVT. OF MYSORE.

Dated Bangalore, the 16 Sept. *1942.*

A.R.P. - Medical treatment of gas casualties.

SIR,

I am directed to say that the Government of India, Civil Defence Department, have arranged with General Headquarters in India for the training at Poona Cantt. of about 20 civilian doctors in the medical treatment of gas casualties and that one vacancy has been allotted to Mysore.

2. I am accordingly to request that, if there is no objection, the Government of Mysore will be so good as to send a suitable doctor for this specialised training. The officer after training should be in a position to instruct selected doctors from the Mysore State and from the Civil and Military Station, Bangalore, in the medical treatment of gas casualties, and it is suggested therefore that the doctor selected should be a fairly senior officer and able to impart knowledge through lectures.

3. The course at Poona is being arranged to commence, if possible, in October 1942, and the exact date of commencement will be intimated to you later. If, in the meanwhile, the Government of Mysore could kindly furnish the name and address of the doctor selected, the Director General, Indian Medical Service, would arrange to send

him

him the necessary instructions direct, in order to obviate delay.

4. The Director General, Indian Medical Service, considers that before the selected doctor goes to Poona, he should have some background and knowledge of the various methods of chemical warfare. He suggests therefore that the selected doctor should be recommended to read the following books before he goes to Poona: -

(1) Medical Manual of Chemical warfare.
(2) Personal Protection against Gas.
(3) First Aid and Nursing for Gas Casualties.
(4) Medical treatment of Gas Casualties

No.(1) is a War Office publication and Nos.(2), (3) and (4) are A.R.P. Handbooks Nos.1, 2 and 3 published by His Majesty's Stationery Office, London.

5. I am to request the favour of a very early reply.

I have the honour to be,
Sir,
Your most obedient servant,

SECRETARY TO THE RESIDENT.

----:o:----

Sir,

Sent in original to all GP I am directed to refer to paragraph 2 (b) of this Department circular No.309/42, dated the 17th August, 1942.

2. Certain Medical Officers from Provinces, Residency Areas and States have already received training in the medical treatment of gas casualties at special courses of instruction held at Poona in April and October last.

3. The recommendations of the Government of India are that these trained Medical Officers should conduct courses of instruction for Civil Surgeons and Medical Officers of Hospitals who would be responsible for the treatment of gas casualties in Class I and II towns.

4. These officers at some later date, upon receipt of instructions from this Department, in their turn should instruct Medical Officers, Nurses and other Hospital and Casualty Service personnel in the medical treatment of gas casualties.

5. It is, therefore, requested that you will instruct the trained Medical Officers from your Province to organize forthwith training classes for instruction in medical treatment of gas casualties at which at least one Medical Officer from each Class I and II town will attend.

6, Special instructions for the Provinces of Assam, Bengal and Bihar, are under issue.

7. Equipment. The equipment provided need not be elaborate andit will not be necessary to provide special buildings, such as gas chambers, etc.,

8. Demonstration of the Cleansing Section of a first-aid post should be given on similar lines to that given to the Medical Officers from your Province during the instructional course at Poona.

Improvised equipment for demonstration should be provided by local purchase. This will include such items as -
